

- 10.3.3 Some dangerous goods should be segregated from foodstuffs by a certain distance within the CTU or are even prohibited in the same unit. More advice is to be found in the applicable dangerous goods regulations.
- 10.3.4 When dangerous goods are being handled, the consumption of food and drink should be prohibited.
- 10.3.5 Packages should be handled and packed in accordance with their markings (if any). Further details regarding markings are provided in annex 7, appendix 1.
- 10.3.6 Drums containing dangerous goods should always be stowed in an upright position unless otherwise authorized by the competent authority.
- 10.3.7 Stacking heights, stacking load tests and stacking limitations are set forth in applicable dangerous goods regulations that should be strictly followed.
- 10.3.8 Dangerous goods consignments which form only part of the load of a CTU should, whenever possible, be packed adjacent to the doors with markings and labels visible. Particular attention is drawn to annex 7, subsection 3.2.7 concerning the securing of cargo at the doors of a unit.
